Welcome to The IEEE Student Branch Wiki. The purpose of this wiki is to allow the IEEE Council to share and record useful information for future use. And of course, it would not be a wiki if we did not give everyone the ability to edit it! Just log in with your A number and password to use basic editing tools. IEEE Branch leaders can also unlock additional features for other council members. Also, it should be impossible to delete anything from the wiki since we can restore to any previous version. That's the beauty of wikis!
